FLUID POWER COMPANY

Hydraulics, Pneumatics
& Engineering

ABOUT US

SDA Fluid Power takes pride in its reputation as a reliable and customer -centric organization. Since our inception on June 2, 1992, we have remained committed to fulfilling our customers' needs. Starting with hydraulic and pneumatic products, we expanded our portfolio to include industrial applications. Our knowledgeable team offers friendly advice based on years of combined experience and friendly demeanor.

VISION STATEMENT

SDA Fluid Power aims to be the paragon of the value-added problem-solving institution. We provide superior person-to-person individualized service to all our customers and prospects. Our vision is to be the go-to partner for fluid power supply, offering personalized solutions that make a difference. Additionally, we envision expanding our reach through e-commerce, providing seamless online experiences for our valued clients.

MISION STATEMENT

Customer Satisfaction

We strive to understand our customers' requirements thoroughly and deliver solutions that exceed their expectations.

Quality Assurance

Our commitment to quality ensures that every product and service we offer meets the highest standards.

Timeliness

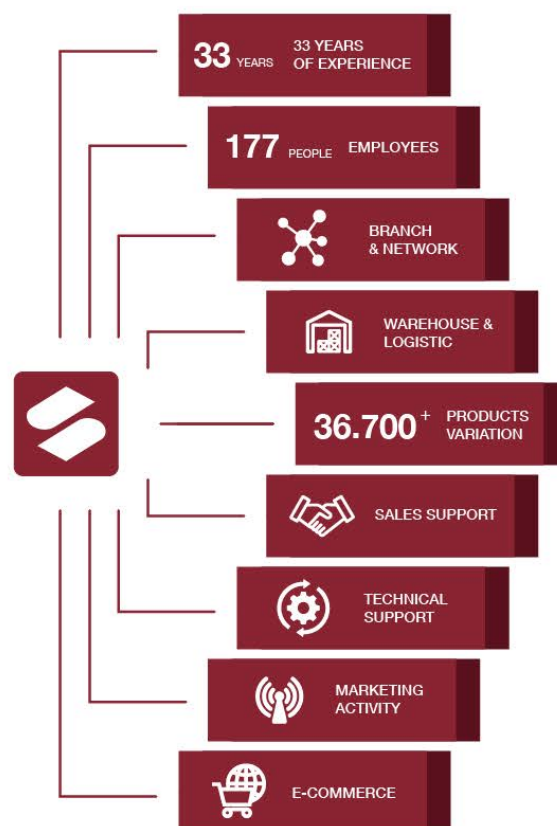

We value your time. Our efficient processes and dedicated team ensure timely delivery.

Competitive Edge

We stay ahead of the curve by offering competitive pricing, innovative solutions supported by comprehensive inventory for the market.

Mutual Success

We believe in fostering strong relationships with our valuable customers, trusted suppliers, prestigious corporations, and the dynamic community.

OUR ADVENTAGE

SOPHISTICATED INFRASTRUCTURE

Our robust and expansive warehouse empowers us to fulfill orders of any quantity, whether they are substantial or modest, regardless of the location. Our extensive dealer network ensures timely product delivery across the country. The dedication and expertise of our experienced staff have been instrumental in our remarkable success.

COMPETITIVE STRENGTHS

Technical Proficiency

Supported by a team of skilled and knowledgeable staff.

Quality Assurance

Meeting customer requirements and industry standards consistently.

Timely Deliveries

Ensuring products are delivered promptly every time.

Affordable Pricing

Offering market-friendly prices that provide value for both clients and end users.

CUSTOMERS' SATISFACTION

Our dedicated professionals have built strong relationships with clients by consistently delivering an extensive range of economical, high-performing, durable, and safe products. We prioritize customer satisfaction, actively seeking and valuing customer feedback. This input helps us enhance product quality while ensuring competitive pricing, ultimately bringing immense gratification to clients across Indonesia.

INDUSTRIES WE SERVE

We specialize in delivering innovative solutions and services to various industry, catering to their unique needs and challenges. Our expertise spans various sectors including mining, constructions, oil & gas, automotives, etc., ensuring that our clients receive tailored, high-quality support that drives growth and efficiency. From cutting-edge technology implementations to strategic consulting, we are committed to empowering businesses and enhancing their competitive edge in the market.

Agriculture | Automotive | Construction | Consumer Products | Food & Beverage | General Manufacturing | Heavy Duty Industrial Equipment | HVAC | Lawn, Garden & Professional Landscaping | Machine Tools & Precision Equipment | Micromobility | Mining | Oil & Gas | Powersports | Truck & Bus

WORKSHOP CENTER

At SDA Fluid Power, our workshop center is the heart of our operations, dedicated to providing top-grade services for the hydraulic and pneumatic industries. Our facility is equipped with advanced technology and specialized machinery that enable us to suffice the diverse needs of our clients.

PRECISION ENGINEERING

At SDA Fluid Power, we offer a comprehensive one-stop solution for all your precision engineering needs. Where skilled machinists create intricate parts with precision using cutting-edge machinery.

HOSE ASSEMBLY

Our Swaging/Crimping Center is dedicated to providing high-quality assembly solutions for hydraulic, pneumatic and industrial applications. This specialized facility is equipped with sophisticated swaging and crimping machines that ensure precise and reliable connections for hoses and fittings.

SDA BRANCH LOCATIONS

SACHIO®

Fluid Conveyings

SACHIO is a premier brand specializing in fluid conveying products, including hydraulics, pneumatics, and industrial hoses. Recognized for our reliability and innovation, we serve a wide range of essential industries across Indonesia, such as manufacturing, firefighting, building safety, and transportation. With a strong commitment to quality and customer satisfaction, SACHIO is the trusted partner for businesses seeking efficient and dependable solutions for their fluid conveying needs.

DUNLOP HIFLEX

Hydraulic Hoses

For decades, Dunlop Hiflex has stood as a beacon of reliability and innovation, earning its place as one of the market's most esteemed suppliers of hydraulic and industrial conveyance products and systems. Our commitment to excellence is driven by a wealth of knowledge in manufacturing hoses and couplings, catering to both high and low pressure applications. Since becoming part of the Alfagomma Group in 2005, Dunlop Hiflex has amplified its global influence. Alfagomma Group, an international Italian company, stands as one of the world's leading manufacturers of hydraulic and industrial hoses. This partnership has propelled us to new heights, reinforcing our commitment to quality and innovation.

ALFAGOMMA

Hydraulic & Industrial Hoses

Since 1956 Alfagomma has been manufacturing and delivering top quality products all over the world. Alfagomma believes in the importance of offering an excellent service to all its customers along with a continuous new product research and development, a technical innovation and customized solutions, a constant high quality exceeding ISO 9001 quality standards and full compliance with ISO 14001 environmental norms, a global presence and logistic support a strong OEM expertise and customized solutions.

METAQUIP

Hydraulic Hoses, Fittings & Quick Couplings

Metaquip is a trusted brand specializing in high-performance hydraulic solutions. Our product range includes durable hydraulic hoses, precision-engineered fittings, and reliable quick couplings designed to ensure optimal performance across various industrial applications. Metaquip delivers quality you can count on.

TRANSFER OIL

Pure Fluid Attitude

Thermoplastic Hoses

Transfer Oil is today one of the most representative manufacturing players in the high pressure thermoplastic hose industry. The company was founded in 1979 not far from the city of Parma, in Italy, the UNESCO creative city of Gastronomy. Since its beginning, Transfer Oil produced reinforced thermoplastic hoses manufactured from the finest raw materials sourced from leading suppliers of premium engineering polymers and fibers. Transfer Oil products are the choice of the most significant distributors in our industry as well as renowned OEMs that can take great advantage of Transfer Oil direct product design capability, in house hose analysis and qualification. With applications ranging from hydraulic systems, gas and fluid handling up to refrigeration and air conditioning, Transfer Oil products are used in several different industries.

Stucchi®

Hydraulic Quick Couplings

Stucchi is a leading manufacturer of quick couplings, multicouplings plates and quick connect solutions. The recognized, main strengths of the company are flexibility in the supply of standard products and the ability to develop customized solutions able to satisfy partner's needs, adding value to their projects, in terms of performance, safety, ease of use and environmental sustainability. The complete production process takes place in Italy, guaranteeing a high level of quality through raw material certifications, engineering know-how, production automation, fatigue and pressure tests. The service is completed by a punctual shipping department and a helpful after sales service.

pieffeci

Pipe Fixing

Founded in 1973, PIEFFE.CI. has clocked fifty years of commitment to providing the market with pipe fixing solutions. Every product and every application reflects our history, marked by an unwavering commitment to exceeding the highest quality standards.

Strength: production Made in Italy

All PIEFFE.CI. processes are carried out in Parma plant: from design to mould making, from casting to moulding of aluminium and plastic materials, up to the processing of materials in bars (iron, steel, PP, PTFE and others) for the production of fixing accessories, and finally, complementary operations such as welding, extrusion, milling and threading. Continuous technological investment in the production area guarantees high efficiency and systematic quality control, even in large batches.

Hydraulic Hoses & Tubing Processing Equipment

People, passion and solutions are the strong features of O+P.

For more than 40 years we have been producing equipment for hydraulic pipelines, offering customized solutions gained from research, precision and quality. Wideness of range, development and innovation make O+P a unique, young and dynamic brand. Manufactured in compliance with EC standards, all our products ensure quality, innovation and safety which are the results of the fact that all the mechanical components used in our equipment are manufactured by our sister company Sinde Srl, specifically set up for this purpose making it a critical piece to O+P's consistent quality.

Hoses, Couplings & Clamps

TOYOX is a specialized manufacturer that works on developing products and custom-made products that help solve on-site issues with hoses and couplings and improve productivity by achieving "stable production", "energy saving", "food safety", "workability improvement", etc.

Fluid Conveying

Dixon, founded in 1916, is a premier manufacturer and supplier of hose couplings, valves, dry disconnects, swivels, and other fluid transfer and control products. Our global reach includes a wide range of products for numerous industries including petroleum exploration, refining, transportation, chemical processing, food and beverage, steel, fire protection, construction, mining, and manufacturing. Dixon's strategic objective is to create solutions that make products safer, leak-free, longer lasting, and always available.

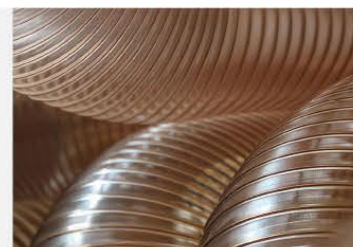

Fluid Conveying

Since our company foundation in 1960, we have contributed to various industries that handle fluids based on our extrusion molding technology. We constantly strive to develop and offer products that meet our customers' expectations by utilizing the technology and experience we have cultivated over the course of our company history. Our mission is to "make a contribution to the growth of people and the realization of a better society through manufacturing." We promise to be a trusted partner for our customers by developing and providing unique products and services in a timely manner and striving to improve quality.

Fluid Conveying

VACUFLEX GmbH is an independent company of the Schauenburg Hose Technology Group and a specialist in the production of thermoplastic flexible hoses, ducting and hose assemblies - with production sites in Germany and China.

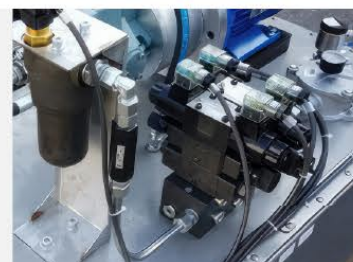

Hydraulic Components

Hydraulic components form the core of hydraulic systems, using pressurized fluid to perform various tasks. Key components include hydraulic pumps, cylinders, motors, valves, reservoirs, filters, hoses, and pipes. These parts work together to provide precise control and efficient power transfer in industrial applications.

Hydraulic Products & Systems

Since its foundation in 1956, Yuken has been specializing in and devoted to hydraulics, supplying hydraulic equipment and systems to various industries. Starting from the establishment of its overseas manufacturing base in Taichung in 1969, the company built a group network for manufacturing and sales mainly in Asian including India and China, and has been working hard to expand the Yuken brand globally.

HONOR

High Pressure Gear Pumps & Motors

HONOR GEAR PUMPS CORP. was formed as a result of the purchase of a local hydraulic gear pump product line, which was established in 1984.

Since the completion of our acquisition in 1994, we have gained a reputation for design expertise and product quality through innovative engineering and leading edge production techniques. The skilled engineering staff at HONOR GEAR PUMPS CORP. represents our commitment to the quality found in our product line. Internal design improvements have been made over the past 20 years, across the entire product line. To further demonstrate our dedication to quality, we are certified UKAS ISO 9001:2015. In addition, our experienced sales staff and worldwide distributor network represents our goal of 100% customer satisfaction. We will continue to expand our product line based on market demand, and would be pleased to consider all customer requirements.

Hengst

FILTRATION

Filtration

Hengst develops technologically leading filtration systems and elements for the plant and mechanical engineering, building ventilation, power generation, life science and healthcare sectors.

The customized solutions are used in medical clean rooms, air conditioning systems, production machines, power tools and other applications.

Hengst is also a series supplier to the international vehicle and engine industry and a development partner for sustainable drive and mobility concepts.

SACHIO

Pneumatic Systems & Components

SACHIO specializes in high-quality pneumatic products designed to enhance efficiency and reliability across various industries. Their offerings include advanced air cylinders, precision solenoid valves, robust pneumatic hoses, and air preparation units tailored for optimal performance. SACHIO is dedicated to providing innovative solutions for automation, manufacturing, and other industrial applications, ensuring smooth and safe operations for their customers.

JXPC

Pneumatic

Ningbo New Jiaxing Automatic Industry Co., Ltd.(JXPC) was founded in 2007, which now has been the professional supplier of pneumatic components in China. JXPC started with air source treatment and valves 20+ years ago as state-owned enterprise. At present JXPC has 46 automatic and semi-automatic production lines and 300+ employees.

The main products of JXPC are air source treatment, valves, pneumatic fittings, pneumatic cylinders and other pneumatic components. Especially, the FRL units and solenoid valve, which started earlier, have covered the local and overseas markets due to their quality equivalent to well-known European brands.

FESTO

Pneumatic

Festo focuses on innovation and progress in order to proactively meet the challenges of the future. The company therefore continuously expands its core competencies by integrating new areas, such as electric automation, process automation and SupraMotion. The aim of this strategic diversification is to create new opportunities and enhance the integration of technologies to simplify the work of our customers. In addition to introducing new business areas, Festo also incorporates modern technologies into its products. These include piezo technology, artificial intelligence, Smart Factory and IoT technologies.

SDA

Hydraulic & Pneumatic Cylinders

Our service specializes in the engineering of hydraulic and pneumatic cylinders. We provide custom design, manufacturing, and maintenance solutions to ensure optimal performance and reliability for your equipment. Our team of experts is dedicated to delivering high-quality, efficient, and cost-effective cylinder solutions for various industrial applications.

SDA

Hydraulic Power Units

We specialize in designing and manufacturing high-quality hydraulic power units. Catering to industries like construction, manufacturing, and automotive, our products are built to deliver exceptional performance, reliability, and efficiency. With a focus on innovation and customer satisfaction, we provide cutting-edge solutions that power your operations and drive your success.

SACHIO®

Industrial Valves

SACHIO industrial valves represent precision, reliability, and innovation in flow control solutions. Designed for demanding applications across industries like oil and gas, water treatment, and manufacturing, SACHIO valves ensure optimal performance, durability, and efficiency. With a commitment to quality and cutting-edge engineering, SACHIO delivers trusted valve solutions that meet the highest standards, empowering your operations with seamless control and unmatched reliability.

SACHIO®

Pressure Gauges

SACHIO pressure gauges are known for their reliability and accuracy. They are designed to withstand harsh environments and provide precise readings, making them suitable for a wide range of applications, including hydraulic systems, pneumatic systems, and process industries.

MITSUBOSHI

Power Transmissions

Mitsubishi Belting Ltd. was founded in Kobe (Japan) in October 1919 as a producer of industrial drive belts. It all started with the production of cotton belts. Through continuous advancement and further developments, Mitsubishi has evolved over the years into a Global Player not only in the drive technology sector, but today, the company also offers solutions in the sectors of architecture, landscape construction and electronic components.

This success is based on the consistent implementation of the corporate philosophy "High Performance," "High Precision," and "High Quality." The three stars in our company logo stand for this philosophy which is also represented by our name Mitsubishi (Japanese for "three stars").

Milwaukee

Tools

Since the company began in 1924, Milwaukee Tool has led the industry in both durability and performance. With an unwavering commitment to the trades, Milwaukee continues to lead with a focus on providing innovative, trade-specific solutions. Whether it is through their leadership in LITHIUM-ION technology, as seen in the M12™, M18™ & MX FUEL™ Systems, time-saving accessories or innovative hand tool products, Milwaukee is dedicated to delivering a steady stream of advanced solutions for the trades that offer increased productivity and unmatched durability.

NITTO KOHKI

Industrial

NITTO KOHKI is a Japanese manufacturer founded in 1956. The NITTO KOHKI Group makes and sells the quick connect couplings "CUPLA", power & machine tools, electric screwdrivers "delvo", pumps & compressors, MEDO BLOWER, and door closers.

NITTO KOHKI's "energy and labor-saving" technology contributes to enabling smooth operation, and helps businesses achieve growth in a broad range of industries.

HANGCHA

Forklift

Hangcha Group is the leader in full line forklift manufacturing in China and among the top 8 in Industrial Trucks and Services in the world, and employs over 6,000 people worldwide. Hangcha Group was founded in 1956. 69 years later, we continue to manufacture reliable material handling equipment. In 2016, Hangcha Group went public on Shanghai Stock Exchange. In 2024, more than 280,000 new Hangcha units were sold worldwide. Quality and innovation are two of the reasons that Hangcha products are distributed to more than 180 countries & regions with about 13% in global market share. Now, we can offer a complete fleet of material handling equipment, from 1-48t internal combustion counterbalance forklift, 0.6-48t electric forklift trucks, warehouse equipment, 3-6t side loader, empty container handler, reach stacker, AGV and much more. Our annual production capacity is more than 400,000 units thanks to the intelligent manufacturing factory.

SDA

Stainless Steel Pipes, Tubes, Fittings, Flanges & Valves

Our range of steel pipes, fittings, flanges, and valves are designed for exceptional performance and reliability in various industries. Whether you need robust steel pipes, secure pipe fittings, reliable flanges, or precision valves, our solutions meet stringent international standards for quality and performance, ensuring efficient and leak-free operations in any application.
